

- of high risk he/she will be quarantined and pre designated Ebola Isolation Center in Addis Ababa. The laboratory result will determine for the person to go or not.
4. All passengers who come to Ethiopia will be asked to fill their detailed information while on board based on the standard format developed and distributed by Ministry of Health. The screening team at Airport will collect the filled format from the passengers.
 5. Passengers who are transiting through Addis Ababa and who Ethiopian Airlines reserve Hotels for are obliged to stay only in Hotels that are reserved.
 6. All passengers, from affected or at high risk countries, who enter Ethiopia, will be tracked and checked for their health status, on a daily basis for at most 21 days by trained health workers.
 7. People who will enter Ethiopia through major land crossings will also be subjected to screening for temperature. Those who have high temperature (38°C) will further be seen by a trained Doctor for the risk of Ebola exposure based on the standard (WHO and CDC) Ebola case definition. If no risk the person is allowed to go. If low risk the person will be allowed to go but with advise and continuous follow up by health team. If the person is of high risk he/she will be quarantined and pre designated Ebola quarantine center at the nearest health facility.

Your cooperation is highly appreciated.
